3. WATER SUPPLY (Para 232/Div ROs dated 20 June 43 is repeated)

(a) Despite previous instructions strict water discipline is not being enforced by Units. The result is that in the late afternoons when showers are required by all ranks, the supply of water has become exhausted. This is mainly caused by personnel using showers between the hours of 0800 and 1500, and also by Units wasting water in other respects. Units must realise that with the return of leave personnel the demands on the water supply are going to be even greater, and if adequate care is not exercised drastic restrictions will be imposed.
