4. SALUTING.

had  
The G O C has occasion again to draw attention to the fact that Saluting is still not receiving sufficient attention. Each Bn is being judged by the standard of saluting of its personnel, both in and out of Camp, and apart from the fact that it is an order that this question be given more emphasis, it is also a fact, that the standard of military training attained by any unit is judged partly by external appearances. It is felt that 28 NZ (Maori) Bn could well give a lead to other units in this matter and it is hoped and expected that this will be done.
